Samosaran

The World of Harmony

The Vision

'Samosaran - The World of Harmony' will unfold the spiritual journey embodied in and expounded by our revered Tirthankaras in a most interesting, unique and captivating way for the first time ever. Through this exclusive creation, the vision is to manifest the timeless wisdom in a way in which one can really experience the depth and vastness of this incredible insight. This breathtaking, educational and enlightening display will transport the audience back in time as if being in the 'Real Samosaran'.

The teachings of the Tirthankaras on all aspects of life - including human relationships, love, compassion and the protection of nature, animals and the environment - are most relevant and of greater necessity than ever before. Despite tremendous developments and technological advancements in today's world, we are disengaged in our relationships with nature and with each other. In such times the enduring messages of the Tirthankaras can bring peace and solace to all and show a positive path forward. The Samosaran will be an extraordinarily beautiful, artistic and highly informative display of the teachings of the Tirthankaras.

The Theme

We are familiar with the history of wars and conquests, but understand very little about the power of love, friendship, compassion and peace as exemplified by our revered Tirthankaras.

Broader understanding of ahimsa, practicality of spirituality and embracing humanness will be the three foundations pivotal to the project. Religion and spirituality will come alive here through the use of ultra-modern exhibition techniques so as to:

- **Promote understanding of the past to shape a better future**
- **Provide guidance to achieve blissful living**
- **Develop harmonious relationships with all beings**

This great monument of our rich heritage, tradition and culture will foster values of cooperation, coexistence and compassion among the human community - regardless of race, caste and creed distinctions - in a practical and compelling way.
